Art Unit: 1731

DETAILED ACTION

1) Acknowledgement is made of Amendment received 7/13/2006.

Claims 1-61 are cancelled, and new claims 62, 63, 64, are offered for consideration.

2) Newly submitted claims 63, 64, are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claim 63 recites a method of treating a paper. Claim 64 recites a method of making recycled

calcium carbonate.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 63, 64, are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim 62 is pending.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3) Claim 62 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35

Art Unit: 1731

U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd.* v. *Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4) Claim 62 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 62 provides for the use of recycled calcium carbonate, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 62 is a non-statutory claim since it includes the **USE** and the **METHOD OF**MAKING of recycled calcium carbonate.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Application/Control Number: 10/687,194 Page 4

Art Unit: 1731

5) Claim 62 is rejected under 35 U.S.C. 102(b) as being anticipated by Sohara

(5,759,258). Sohara discloses the forming of calcium carbonate from residues of

deinking of wastepaper process, as shown in Figure 1. The formed recycled calcium

carbonate also known as precipitated calcium carbonate (PCC) is used for treatment of

paper, for example, to provide high brightness to the paper as disclosed in Example I

(cols. 6-7).

Conclusion

6) Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Mark Halpern whose telephone number is 571-272-

1190. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Steven Griffin can be reached on 571-272-1189. The fax phone number for

the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov.
